

SR-21010 4-SEAT SPRING

SPECIFICATIONS:

- **Age Range:** 2 to 12
- **User Capacity:** 4
- **Fall Height:**
- **Equipment Size:** 10'-8" x 3'-2" x 3'-10"
- **Use Zone:** 23" x 16"
- **Perimeter:** 76 Ft.
- **Surface Area:** 343 SqFt

TOP VIEW

Compliance:

This play structure has been designed to meet the safety requirements established in:

- 2010 ADA Standard
- ASTM F1487-21
- CPSC Pub #325

when the play structure is installed over a properly maintained surfacing material which is in compliance with

- ASTM F292
- ASTM F1951

and is appropriate for the highest designated play surface of the structure.

THE MAKING OF A WISDOM PLAYGROUND SYSTEMS

Quality you can see, value you can measure

ROTOMOLDED PROCESS

1: Quality materials: Selected high-grade LLDPE raw materials, linear low density polyethylene, impact resistance, cracking resistance, heat/cold resistance, acid, alkali and organic solvent resistance, etc., perfectly adapted to various harsh outdoor environments.

2: Flexible design: not limited by size/pattern/color/thickness, designers can freely play and easily meet ideal expectations.

3: Eco & Safety: one-time molding, no scraps, no waste, non-toxic and odorless.

CLAMP ASSEMBLY

1: Clamp design: abandon the common phenomenon of only screw fixing, which is prone to loosening and shaking over time. The clamp design is stable and firm.

2: High quality metal: strong stability, burst resistance, cracking resistance, rusty resistance and fine polished, no corners or sharp edges, ensure safety in daily use.

3: Convenient assembly: "One loop, one clamp" closed-loop fastening. Simple assembly, convenient maintenance.

DECK/STAIRS

1: Selected Metal: High strength cold rolled steel flat, structurally and mechanically stable, corrosion-resistant, weather resistant, safe and eco, suitable for outdoor use.

2: PVC coating: After professional technical treatment such as gluing, preheating, PVC coating, and high-temperature curing, the steel deck has improved its anti slip, anti wear, anti static, and anti crack properties, making it new over time.

QUALITY POWDER COATING

1: High-end technology: To avoid problems such as rust and aging of steel tubes, we use high-end hot dip galvanizing technology combined with high-quality outdoor powder coating to extend the service life!

2: Craftsmanship process: Galvanized tubes require a total of 13 processes, including water washing, oil removal/impurity removal, and electrostatic spraying. Ensure smooth and flat surface, rust and corrosion resistance, and long-term durability.

TUBULAR POST

1: Thickening material: fabricated of 3.5 in. outside diameter, 13 gauge galvanized steel tubing, making it more secure and safe.

2: Two mount types: Inground mount and surface mount as needed.

PROFESSIONAL WELDING

1: Mature craftsmanship: Senior craftsman meticulously works, with even welding joints and careful polishing, with no burrs, incomplete penetration, or porosity overall.

2: Safety first: The welding joints are stable, firm, and smooth, strictly ensuring product safety.

SUSTAINABLE & ENVIRONMENTAL PROTECTOR

WISDOM has successively obtained multiple certificates that comply with international standards, such as ISO9001, ISO14001, ISO45001, FSC, IPEMA and China Green Product certification, marking WISDOM's strategic ability and determination to adhere to sustainable development!

Implement the concept of eco and quality, integrate global advanced education concepts into the DNA of WISDOM products with the eyes of the world, and aspire to provide green, eco, and high-quality products for children around the world. Help children explore the world with peace of mind and experience a beautiful and happy childhood!
